To: REGIONS, ZONES AND DEALERS

Subject: NEW SHOP MANUAL, FIRST SECTION

Packard Shop Manuals have not been issued since 1942. It has now been decided to issue Shop Manuals on Packard Clippers and the 1948 Series in a smaller and more convenient size for shop use. The manual will be issued in sections. Titles of the sections will be:

1. Servicing Convertible Hydraulic System
2. Rear Axle
3. Clutch, Transmission, and Overdrive
4. Engine
5. Chassis
6. Body

The first section is now ready and a sample copy is attached. This section will be found particularly timely as the mechanism involved is new from a servicing standpoint. Other sections will follow as promptly as they can be released.

The number of copies received by Zones and Dealers is determined by the number of bulletins received by each. Additional copies of the manuals may be obtained through Zone offices at 25¢ per copy for each section. This charge is nominal and in no way covers the cost of preparation and printing but has been established as a means of control over the distribution of Shop Manuals.

Very truly yours,

A handwritten signature in blue ink that reads "N. A. Lull".

N. A. Lull
Service Technical Manager
