Subject: TAXICAB WHEELS

Starting April 24, 1947 with engine number F-35000, a new wheel is used on the taxicab.

The new wheel which has a 15 x 5½K rim, as compared to the 15 x 5.00E rim on the wheel previously used, takes the same 7.00 x 15 tire and is interchangeable with the old wheel. It is the same in appearance and so may be used in combination with the previous wheels.

Only the new wheel is to be used for service replacement on the taxicab. These wheels are now in parts warehouse stock in limited quantity and may be ordered under part number 403059.

Very truly yours,

A handwritten signature in blue ink that reads "Theo. P. Thomas".
